

A close-up photograph of a tree branch and mossy rocks in a forest setting. The foreground features several large, mossy, light-green rocks. A thick, dark brown tree branch with a textured bark runs horizontally across the middle ground. The background is filled with more branches and foliage, creating a dense, natural texture.

A photograph of a forest floor covered in fallen brown leaves. In the background, there is a dense stand of tall, thin trees with light-colored bark. The sky is visible through the branches.
